THE ROSCONGRESS INTERNATIONAL COOPERATION AREA AT FLAGSHIP EVENTS OF THE ROSCONGRESS FOUNDATION

The Roscongress International Cooperation Area is a single communication space for dialogue between representatives of government and public structures, business circles, experts in Russia and abroad, international organizations, and integration associations. It was created in response to requests from the international business community and foreign participants at Roscongress Foundation events for a specialized meeting and discussion area.

The Roscongress International Cooperation Area is a comfortable ecosystem for effective work, which:

- Includes all the required infrastructure from equipped meeting rooms and lounge areas to a presentation hall and exhibition space in the format of partner stands;
- Unites foreign partners of the Roscongress Foundation under a single international brand, which increases their visibility and representation at the Foundation's events;
- Provides ready-made solutions for foreign participants, enabling them to focus on identifying useful contacts and presenting opportunities for cooperation, while saving time on settling organizational and technical issues;
- Enables Russian companies and government structures to establish contacts with potential partners from abroad.

“The development of the Roscongress International Cooperation Area remains a strategic priority for us. Currently, the Foundation brings together 239 partners from 90 countries. Having a dedicated negotiation space under a unified international brand greatly enhances the efficiency of their participation in Russian events and fosters ideal conditions for direct dialogue among foreign and Russian companies, business communities, and government officials. Facilitating this dialogue is one of our key missions.”
